

JELLY BRYCE BOOK

Old friend
Mike Conti
is a second-

generation cop, now retired, he's also the rangemaster at the Massachusetts Institute of Technology (yup, *that* MIT). Mike's known for his innovation in training in the LE world, but this latest book is simply a romp of a read centering around real-world FBI agent and legendary gunfighter Delf "Jelly" Bryce. If you like historical fiction, and enjoy reading about the real-world exploits of the famous LE gunfights of the late 1920's through the 1940's, here's your chance to have a great time. For a first novel, Mike does a stand-up job and since he's a gun-guy, all the gun-related stuff is spot-on, which always makes a read like this even better. Find it at www.sabergroup.com or call (978) 749-3737.

JELLY BRYCE The Legend Begins
